ASSISTING ANIMALS IN EMERGENCIES

LUZERNE COUNTY ANIMAL RESPONSE TEAM

Over 63% of households across the US have at least one pet.

When disaster strikes who will protect and care for them?

Animal response teams are important in disaster response and equally important in educating the general public about including their animals as a part of their disaster preparations.

The *Luzerne County Animal Response Team* provides emergency shelter and rescue to animals in times of disaster, both natural and man-made.

Visit www.pasart.us and fill out a simple form to become a volunteer.

We need people with all types of skills, expertise and resources.

Sponsors and donations are always welcome and appreciated.

Any Animal, Any Disaster, Anywhere
